

animal-product-import-information/animal-health-status-of-regions/.

That list is referenced in §§ 94.9(a)(1) and 94.10(a)(1) of the regulations. Section 94.9 contains requirements for the importation of pork and pork products from regions where CSF exists. Section 94.10 contains requirements for the importation of live swine from such regions.

Paragraphs (a)(2) of §§ 94.9 and 94.10 provide for the adding and removal of regions to or from the list of CSF-free regions. APHIS will add a region to the list after it conducts an evaluation of the region in accordance with 9 CFR 92.2 and finds that the disease is not present. APHIS will remove a region from the list upon determining that the disease exists in the region based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable. A region that was formerly on the list but that has been removed due to an outbreak may be returned to the list in accordance with the procedures for reestablishment of a region's disease-free status in § 92.4.

On September 9, 2018, the veterinary authority of Japan reported to the OIE the occurrence of CSF in that country. On September 10, 2018, APHIS removed Japan's CSF-free status on a provisional basis pending an epidemiological investigation and remedial measures. Due to the failure to control and eradicate the disease in Japan, on November 20, 2019, APHIS determined that this removal would not be reversible without a formal re-evaluation pursuant to § 92.4.

As a result of these determinations, the importation of pork and pork products and live swine from Japan is subject to the APHIS import restrictions in §§ 94.9 and 94.10, which are designed to mitigate risk of CSF introduction into the United States.

related to operations of an innovation center including purchase of equipment, office supplies, and administrative costs including salaries directly related to the project; costs directly associated with support programs to be carried out at or in direct partnership with job accelerators; reasonable and customary travel expenses directly related to job accelerators and at rates in compliance with 2 CFR 200.474; utilities, operating expenses of the innovation center and job accelerator programs and associated programs; and administrative costs of the grantee not exceeding 10% of the grant amount for the duration of the project.

To calculate your matching funds requirement, multiply your total eligible project costs of each eligible activity by 0.20.

You must provide a written commitment of matching funds to verify that all matching funds are available during the grant period and provide this documentation with your application in accordance with requirements identified in Section D.2.(d)(5)(xii)(A) of this notice. You must include an explanation of this policy in your application or the contributions will not be considered as eligible matching funds.

(k) You must be able to document and verify the number of hours worked and the value associated with any in-kind contribution being used to meet a matching funds requirement.

(l) In-kind contributions provided by individuals, businesses, or cooperatives which are being assisted by you cannot be provided for the direct benefit of their own projects as the Agency considers this to be a conflict of interest or the appearance of a conflict of interest.

3. Other Eligibility Requirements

(a) Completeness

Your application will not be considered for funding if it fails to meet all eligibility criteria by the application deadline or if it does not provide sufficient information to determine eligibility and scoring. You must include all the forms and proposal elements as discussed in the regulation and as clarified further in this notice in one package. Incomplete applications will not be reviewed by the Agency. If the applicant takes any such actions or incurs any such obligations, it could result in project ineligibility.

Projects involving the construction of an innovation center as an eligible purpose are subject to the environmental requirements of 7 CFR part 1970, local building codes and all Federal, State, and local accessibility standards.

(d) Multiple Application Eligibility

Only one application can be submitted per applicant, who is defined as a lead applicant as found in 7 CFR 4282.1112(b). If two applications are submitted by the same lead applicant, both applications will be determined ineligible for funding.

(e) Grant Period

Your application must include no more than a four-year grant period, or it will not be considered for funding. The grant period should begin no earlier than October 1, 2021, and no later than January 1, 2022. Applications that request funds for a project with a performance period ending after January 1, 2026, will not be considered for funding. Projects must be completed within a four-year timeframe. Prior approval is needed from the Agency if you are awarded a grant and desire the grant period to begin earlier or later than previously discussed or approved.

The Agency may approve requests to extend the grant period for up to an additional two-year period at its discretion. Further guidance on grant period extensions will be provided in the award document.

(f) Satisfactory Progress

The lead applicant must be performing satisfactorily on any outstanding RISE award to be considered eligible for a new award as found in 7 CFR 4282.1110(a). Satisfactory performance includes being

up to date on all financial and performance reports as prescribed in the grant award, and current on tasks and timeframes for utilizing grant and matching funds as approved in the work plan and budget.

The Agency will score each complete and eligible RISE application using the criteria specified in paragraphs (a) through (g) of this section with a maximum score of 100 points possible. Points will be allowed only for factors indicated by well documented, reasonable plans which, in the opinion of the Agency, provide assurance that the items have a high probability of being accomplished. Points will be awarded at the discretion of the Agency to scoring criteria with a minimum and maximum number of points available. Applicants that demonstrate the experience or ability to deliver the stated criteria will be awarded higher points in that criteria.

(a) Demonstrated readiness. The rural jobs accelerator partnership demonstrates readiness in administering the RISE grant successfully and shows strong documentation indicating the potential for success in establishing a jobs accelerator project which targets an industry cluster and the initiative(s) of the RISE grant program. Points are awarded on a scale of 0 to 10 with a maximum of 10 points being awarded.

(b) Targeted initiatives. A maximum of 15 points will be awarded for this criterion based on meeting the targeted initiatives as stated in § 4284.1115(b)(2)(xi) of this part with action narratives outlined in the application on how and when the initiatives will be delivered. More points will be awarded for reasonable initiatives that can be delivered within 12 months of the grant award and for those projects leveraging improvements in high-speed broadband service to the region.

(c) Project support. Points will be awarded for the strength of local support of the RISE project and entrepreneurial commitment. A maximum of 15 points can be awarded for application materials that indicate the strength of support for the RISE project. Points will be awarded from the partnership's demonstration of its sources of funding, personnel and

technical resources committed to the project, and a focus on the inclusion of institutional partners expanding access to capital and willingness to potentially invest in projects emerging from the jobs accelerator. Points shall also be awarded for demonstrated resources that will sustain the project beyond the term of the RISE grant period.

(d) Targeted region. A maximum of 20 points will be awarded for this criterion based on the region's demographics according to the latest Census Bureau information. The applicant must provide adequate documentation to the latest Census Bureau information to receive points.

(1) If the targeted region has a median household income of:

(i) 50% or less of state median household income; 5 points will be awarded;

(ii) Over 50% and up to 80% of state median household income; 3 points will be awarded.

(2) If the targeted region residents have the educational attainment of a bachelor's degree by:

(i) 10% or less of the population; 5 points will be awarded;

(ii) Over 10% and up to 30% of the population; 3 points will be awarded.

(3) Existing residents of the targeted region will receive direct career training for new employment or upscaling to a high wage job; 5 points will be awarded.

(4) If the identified region has fewer than 50,000 residents according to the most recent decennial census; 5 points will be awarded.

(e) RISE grant funds requested. A maximum of 10 points will be awarded for this criterion if:

(i) The RISE grant request is for \$500,000 to \$750,000; 10 points will be awarded.

(ii) The RISE grant request is for over \$750,000 and up to \$1,000,000; 5 points will be awarded.

(f) Regional impact. Points are awarded on a scale of 0 to 5 points for each category, with a total maximum of 20 points being awarded for this criterion. To receive points, the applicant must provide documentation to warrant strength on the following criteria, with points awarded for each:

(i) Targeted industry(ies) in the region is classified as an emerging industry.

(ii) Applicant demonstrates that the targeted industry(ies) in the region hold a competitive advantage or will enhance its competitive advantage through the RISE project.

(iii) Applicant demonstrates that the industry provides significant support of regional assets, including broadband, and provides community and economic development support within the region.

(iv) The RISE project's forecasted outcomes align with RISE objectives.

(v) The RISE project will target support to existing industry(ies), whose significance in the region may be stagnant or on the decline but can be enhanced through outcomes of the RISE project.

(g) Administrator points. A maximum of 10 points will be awarded, with justification, at the discretion of the Agency Administrator. The Administrator may award points to an application by a region comprised primarily of distressed communities with high concentrations of employment in coal, oil and gas industries, and coal-fired generation facilities transitioning away from fossil fueled energy production. A list of qualifying communities, which includes both county and zip code, can be found at <http://www.rd.usda.gov/programs-services/rural-innovation-stronger-economy-grants>. The Administrator may also award points to an application to achieve geographic distribution of RISE grant awards across the maximum number of States and diversity of industries targeted.

2. Review and Selection Process

The National Office will review applications to determine if they are eligible for assistance based on requirements in 7 CFR part 4284, subpart L, this notice, and other applicable Federal regulations. If determined eligible, your application will be scored by a panel of USDA employees in accordance with the point allocation specified in this notice. The Administrator may choose to award up to 10 Administrator priority points based on criterion (g) in section E.1. of this notice. These points will be added to the cumulative score for a total possible score of 100. Applications will be funded in highest ranking order until the available funding is exhausted. Applications that cannot be fully funded may be offered partial funding at the Agency's discretion. If your application is evaluated, but not funded, it will not be carried forward into the next competition. SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of Foreign Direct Investment in the United States (BE-15) obtains sample data on the financial structure and operations of foreign-owned U.S. business enterprises. The data are needed to provide reliable, useful, and timely measures of foreign direct investment in the United States to assess its impact on the U.S. economy. The sample data are used to derive universe estimates in non-benchmark years from similar data reported in the

BE-12 benchmark survey, which is conducted every five years. The data collected include balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity for the U.S. operations. In addition to these national data, several data items are collected by state, including employment and property, plant, and equipment.

The Bureau of Economic Analysis (BEA) is not proposing any changes to the BE-15 survey.

II. Method of Collection

BEA contacts potential respondents by mail in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31 (or by June 30 for respondents that file using BEA's eFile system). Reports are required from each U.S. business enterprise in which a foreign person has at least 10 percent of the voting stock in an incorporated business enterprise, or an equivalent interest in an unincorporated business enterprise, and that meets the additional conditions detailed in the BE-15 forms and instructions. Entities required to report will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers electronic filing through its eFile system for use in reporting on the BE-15 annual survey forms. In addition, BEA posts all its survey forms and reporting instructions on its website (www.bea.gov/fdi). These may be downloaded, completed, printed, and submitted via fax or mail.

Potential respondents of the BE-15 are selected from those U.S. business enterprises that were required to report on the 2017 BE-12, Benchmark Survey of Foreign Direct Investment in the United States, along with those U.S. business enterprises that subsequently entered the direct investment universe. The BE-15 is a sample survey; universe estimates are developed from the reported sample data.

III. Data
