Joint Village Strategic Planning
MEETING NOTES
Tuesday, October 31, 2023
10 AM MST
Zoom Videoconference and Telephone

Attendees
- Sarah Dallas, Jennifer Hill, Cedric Kuwaninvaya, Le Roy Shingoitewa, Sam Shingoitewa, Fred Shupla, and Brian Cole

Primary Meeting “Take-aways:"
- Jennifer Hill attended from DB Stephens and Associates. She explained that her firm has the ARPA-funded contract to provide professional services to coordinate the right-of-way between the Siderock Well and Moenkopi. She noted that the preferred route is along the Questar LNG right-of-way. Brian Cole noted that this was the preferred route by JVSP, especially because it could connect with the Poosiwlenena Community Development project.
- Hill explained that DB Stephens and Associates has assisted the Hopi Tribe with water settlement issues, the HAMP project (which is now being extended to Keams Canyon), the Siderock Wells and water dispensing stations, and now the full design from the wells into Moenkopi. Hill indicated that they are conducting aerial survey work between the Questar LNG right-of-way and Highway 160. She also noted that she and her team has met with Niel Yazzie recently.
- Hill indicated that her team would be at Moenkopi and they would be available either on the afternoon of Monday, November 13 or the afternoon of Tuesday, November 14. Brian Cole indicated that Bailey Anderson from his shop would reach out to the “regular attendees” of JVSP to notify them of a possible meeting on either the 13th or the 14th.
- Hill noted that their work needs to be under contract to meet the ARPA obligation deadline of December 31, 2024.
- Niel Yazzie provided an update on some of the complications impacting the MUA wastewater treatment plant.
- Brian Cole noted that there needed to be follow-up on the email from Jessica Durst. He indicated Bailey would be sending an email to establish that meeting.

Next Meeting
- The next regular meeting will take place on Tuesday, November 7, 2023 at 10 am Arizona Time
